NOT FORGOTTEN

Y CARRINGTON PHILLIPS. Hal Shepard glanced at his watch.

There's only a half hour before the tage comes," he announced, "and you haven't answered my question." The girl beside him drew a deep

"I'll answer it now," she replied. can't come."

"Won't you be sensible, Madeline?" he pleaded. "You know I want you to come, don't you?"

"Yes, I think you do-now." "Then why won't you?"

"Because I think that two weeks from now you'll be sorry you asked

"That's nonsense. You know it is." Madeline Gilman shook her head.

"It isn't nonsense. Let's look at this thing fairly, Hal. A month ago you came up here in the mountains to rest from too many dances. You didn't expect to find anybody but a lot of farmers, and when you discovered me here, the simple fact that I'm not altogether a farmer was such a surprise that you haven't quite gotten over it. Compared to the ordinary run of farm girls, perhaps, I am something of a relief, but as soon as you get back home and see the girls you're accustomed to you'll forget all about me." "Then you won't come?"

"I guess not, Hai. I'm all right up here, where an assembly ball is a thing unknown; but down in Ridge field, with its country club and afternoon teas, I'd be out of place. You'll like me better if I don't go to the assembly."

For a moment, Hal Shepard was stlent. It occurred to him that possibly the girl beside him was right. Coming to the little mountain village a month ago, he had been pleasantly surprised to find her. They had been together almost continually, and the freshness of her viewpoint, her lack of affection, had appealed to him no less than the blue of her eyes and the rose tint of her cheeks. The Gilmans reaped the harvest season after season, and had pursued the even tenor of their ways.

"I'm sorry you won't come," he your mind the last minute." "No," she answered. "I've thought

ft all out." "Do you mind singing just once before I leave for home?"

"Of course not." "What shall I sing?" she asked.

"Forgotten." Hal thrilled just a bit as the words

To Have Beautiful Hair Use

NEWBRO'S HERPICIDE

No woman can afford to be indifferent to the appearance of her hair. A mass of nice snappy hair, becomingly dressed, will add more in genuine looks than a pretty face, or an expensive gown. Don't allow the scalp to become clogged with dirt and dandruff. Don't allow dandruff to destroy your hair. If your hair is uneven, dead, dull and brittle and comes out by the handful every time you draw a comb through it, dandruff is the cause. To rid your scalp of the dandruff and check the loss of hair should be your first anxiety. NEWBRO'S HERPICIDE will do this and at the same time put the hair and scalp in a sanitary condition. HERPICIDE appeals to those of greatest refinement on account of its exquisite odor, its purity and cleanexquisite odor, its purity and clean-liness. It contains no grease and does not stain or dye. There is noth-ing more dependable than this re-markable scalp prophylactic. The hair responds readily to a regular and intelligent use of NEWBRO'S HERPICIDE.

Try it and see. Send 10 cents to-day to THE HERPICIDE CO., Dept. S, Detroit, Mich., for a sample bottle and a booklet telling all about

For sale everywhere in 50c and \$1.00 sizes. Guaranteed by The Herpicide Company.

FOR FEDERAL PRICE FIXING

The War Convenion Favors a Purchasing Department

SHOULD ALSO DISTRIBUTE OUTPUT

The Attitude of Workers Is the One Chief Bug-

bear

Atlantic City, N. J., Sept. 22.-Government price fixing of all essential products, not only in sales to the government but to the public as well, was recom-mended in resolutions adopted yesterday at the closing session of the war con vention of American business men. The onvention advocated legislative creation of a general government purchasing department, which, in addition to fixing prices, would have power to distribute the output of industries in a manner most necessary to the conduct of the

"It is the spirit of American business," said the resolutions, "that however fundamental may be the change in the relation of government business, the gov-ernment should have the power during the period of the war to control prices and the determination of production for public and private needs to whatever exent may be necessary for our great naional purpose."

purchasing department propose would absorb the present war industries board and the functions of the director of priority. The present power of the government to control priority of ship-ment would be extended to include authority to direct priority of manufacture, sale and distribution. All buying now done by various bureaus of the war and navy departments would be centered in

the new board. The convention recommended assisting the government in making purchases and had lived in Mountville for three gen- ton and Essex Junction where he lived industry, representing all branches of erations; comfortably fixed, they had for some time, arrived in that city business, which would aid the purchasing Tuesday en route to his home in South department in apportioning orders. Firms Are Reportnig Promptly-Legal Penalties for Delinquents.

Even before the final date set for reurns on foodstuffs held by commercial Thomas J. Mooney and others, has been firms, for the federal food survey, resubpornaed, it became known yesterday, ports from more than 130,000 dealers to testify against F. C. Oxman, now on were in the hands of the bureau of marculture, which has been charged with Mrs. Smith recently charged in an carrying out the provisions of the law requiring the survey. Officials conduct-Mooney, who was sentenced to death, ing this war emergency measure say

Returns Required by Law.

Even with the excellence of the early returns, the department called attention to the fact that all firms called on are required to fill out and return the schedules, and to do so promptly. The law providing for the food survey is mandatory and in order to carry out its intent and purpose, the bureau of markets is insisting upon a 100 per cent. response. While officials say that they would regret invoking the penalties provided for in the law, they point out that delays cannot be permitted to defeat the purposes for which the legislation was enacted, and that they will not hesitate to employ all the powers which the law confers to combat negligence.

In no case will willful refusal to make returns be tolerated. The depart-

ing the nation's 2,300,000 fighting men lieve that an artist who was one of the when they are under arms, were dis- highest sellers was without money.

They must give quantity on hand and in by the war department yesterday in esti- transit from the reporting firm.

for. For grains and grain products, for example, the schedules are filled out by FURNISH CLUE elevators, mills, dealers, seedmen, dis tillers, brewers, manufacturers, and the Aroused by the Knowledge That Her like. Canners, sugar makers, bakers, confectioners, packers, shippers, grocers, brokers, jobbers, creameries, cold-storage plants, warehouses, and many other types of business are also listed among those who must report.

Willingness Shown.

So far, most of the responding firms not only show willingness to make the the survey, and show that the firms reporting were anxious to co-operate fully with the department in making the in-

PROVIDE WINTER POTA-TOES BY HOME STORAGE

Save late Irish potatoes by storing them in a room in the cellar, or in an outdoor storage bank or

When stored in cellars, the potatoes may be put into barrels, boxes, baskets, crates, bins, or on the floor, but must be protected

from the light. Select a well drained location, make a shallow excavation about six inches deep, line it with straw, hay, leaves, or similar material. and place the potatoes in a conical pile on the lining. Make the bottom of the pile about the same size as, but not larger than, the bottom of the excavation.

Cover the potatoes with the same material as that used for lining the bottom of the pit and carry it up several inches above the apex of the pile of vegetables, having it extend through the dirt covering. This serves as a ventilating flue, and it should be covered with a piece of tin or a short board as a protection from rain.

The dirt covering should be two or three inches thick when the vegetables are stored, and it should be increased as severely cold weather approaches until it is a foot or more in thickness, or sufficient to protect from freezing. In finishing the pit, the dirt should be firmed with the back of the shovel in order to make it as nearly wa-

terproof as possible. The shallow trench around the base of the pit should have an outlet for carrying off the water. Supplement the dirt covering with manure, straw, corn fodder, or other protective material. several small pits instead of one large one, as vegetables keep better in small pits, and the entire contents can be removed when the pit is opened.

For more detailed information on the storage of potatoes, write for farmers' bulletins 847 and 879, S. department of agriculture,

Washington, D. C.

MEAL A POISONOUS INJECTION

make returns be tolerated. The department does not expect to have to resort to compulsion, but it is prepared to do so if it should become necessary.

Firms Which Must Report.

Firms handling any one of 18 specified items are required to report, under such classifications as grains, grain food products, meats and meat products, fish, dairy and related products, vegetable fats, sugar, and canned goods. They must give quantity on hand and in transit from the reporting firm.

About 100 types of business are enumerated, embracing, it is thought, all dealers handling the food items asked MEDAL Brand—Adv.

Few folks suffering from kidney and bladder troubles ever think that the meals which they are taking are hastening their death. Every morsel of food taken gives up its quantity of uric acid. This poison is taken into the system through a diseased condition of the kidneys and olladder. In the healthy man nature provides an outlet for this poison. Those in the food products, we getable fats, sugar, and canned goods, they must give quantity on hand and in transit from the reporting firm.

About 100 types of business are enumerated, embracing, it is thought, all dealers handling the food items asked
